

Health and Safety Policy

This company is committed to providing a robust safety program that protects employees, facilities and the public from accidents.

Health and safety officials are Mr. Michel Boivin on the second team and Mr. Jean-François Noiseux on the first team.

Employees at all levels, including management, are responsible for the overall safety initiatives of the company. The full and active participation of all employees on a daily basis is essential to the safety of employees in the workplace.

Management encourages all employees to participate in this program and provide appropriate procedures, training and equipment. Employees are responsible for following these procedures, working safely and, where possible, improving safety measures.

Our goal is to provide a workplace that is free of injury and accident. We can achieve this through continued safety efforts.
